Professional Summary

Dedicated and proactive Full Stack Developer with over 3 years of experience building scalable web and mobile applications, microservices, and cloud-integrated systems. Fast learner, highly communicative, and committed to delivering robust solutions through continuous improvement and modern technologies.

Professional Experience

Software Developer

PFC TI Grupo Promerica — Jul 2022 – Present

- Developed and maintained microservices in Node.js, C# and Java for customer and communication systems.
- Implemented APIs to send emails and SMS via SendGrid and Twilio using Kubernetes and Azure infrastructure.
- Added new features and fixed bugs in Angular components for account statement generation.
- Utilized Azure Key Vault and Blob Storage for secure data and template management.
- Collaborated on unit testing and code reviews for continuous quality improvement.

Full Stack Developer

Corporación Millenium — Feb 2020 – Jul 2022

- Migrated legacy AngularJS web application to Vue.js for electronic invoicing.
- Developed mobile application using Xamarin Forms for both Android and iOS platforms.
- Created and integrated new features and CRUD operations in .NET Framework APIs using Entity Framework and SQL Server.
- Implemented JWT-based authentication across all applications for secure API access.

Core Skills

- Programming: JavaScript, TypeScript, C#, Node.js, Java Spring Boot
- Frameworks: Angular, Vue.js, Xamarin, .NET, Express.js
- Databases: SQL Server, MongoDB
- Tools: Docker, Kubernetes, Azure Key Vault, Azure Blob Storage, Service Bus
- Testing: Unit Testing, Postman
- Version Control: Git, GitHub
- CI/CD: Azure DevOps
